

POWERPOOR

Empowering Energy Poor Citizens through Joint Energy Initiatives

Working on the field with energy poor citizens and policy makers to lower energy poverty levels across Europe

POWERPOOR leads the way in

Supporting energy poor citizens to implement energy efficiency interventions and participate in joint energy initiatives, through the development of POWERPOOR support programmes and tools, to alleviate energy poverty.

Facilitating citizens' behaviour change towards energy use and uptake of energy efficiency measures through experience and knowledge sharing, as well as through joint energy initiatives and citizen engagement campaigns targeting groups of consumers in energy poor communities.

Promoting energy community projects / alternative financing schemes and assisting citizens to pursue funding opportunities (e.g. energy communities, energy cooperatives & crowdfunding).

Energy poor support programmes

that will be designed, developed and implemented in **8 pilot countries** across Europe, led by a network of certified **Energy Supporters** and **Energy Communities Mentors**. Energy poor citizens will be engaged through a framework consisted of **Info Days**, **Local Energy Poverty Offices** and **ICT-driven tools** - which will be integrated in the **Energy Poverty Mitigation Toolkit**.

Energy poverty alleviation

by positioning citizens at the heart of the solution, through a gradual transition from an energy poor citizen towards an **informed consumer** and later an **active prosumer**.

Expected Impact

<p>8 pilot countries</p> <p>Bulgaria, Croatia, Estonia, Greece, Hungary, Latvia, Portugal, Spain</p>	<p>60 cities 5 regions 2 energy cooperatives</p> <p>support pilot projects for alleviating energy poverty</p>	<p>8 energy poor support programmes</p> <p>tailored for energy poor households under 3 engagement cycles</p>	<p>Network of up to 1.100</p> <p>Energy Poverty Supporters & Energy Communities Mentors</p>	<p>7M citizens 2,9M households 30% under energy poverty</p> <p>represented</p>	<p>Up to 22.000 energy poverty households</p> <p>involved in pilot support programmes</p>
<p>8 National Roadmaps</p> <p>to alleviate energy poverty</p>	<p>1 EU Policy Recommendation</p> <p>for multi-level governance cooperation</p>	<p>3 EU Networks</p> <p>will support replicability</p>	<p>188kt CO₂ eq/year</p> <p>reduction of emissions</p>	<p>172 GWh/year energy savings</p> <p>244 GWh/year renewable energy production</p>	<p>Triggering 226 M € cumulative investments</p> <p>in sustainable energy</p>

Energy Poverty Mitigation Toolkit

POWER-TARGET

Identify and target energy poor citizens through a data-driven approach.

Energy Poverty Guidebook

For energy planning & urban development planning processes.

POWER-ACT

Empower energy poor citizens to understand their energy use and the benefits from implementing energy efficiency interventions and from installing renewable energy sources.

POWER-FUND

Communicate innovative financing opportunities to address energy poverty and engage citizens (energy cooperatives, crowdfunding campaigns).

Local Energy Poverty Offices

Provide information to citizens, support them to actively participate in planned activities or joint initiatives and operate as focal points on energy poverty.

Stakeholder Liaison Groups

Facilitate the engagement and the support to energy poor households, reinforce the network of Energy Supporters / Mentors and pursue the sustainability of the toolkit.
